Business report of the Management (consolidated 2024H1)

I. INTRODUCTION

OTP Jelzálogbank Zrt. (OTP Mortgage Bank Close Company Limited by Shares, hereinafter: “OTP Jelzálogbank”, “the Mortgage Bank”, “Bank”, “Company” or “Group”) is a specialized credit institution that was established as a company limited by shares with HUF 3 billion forint share capital and with 100% of its shares owned by OTP Bank Plc. (hereinafter: OTP Bank). The Company received its foundation permit on 21 September 2001; its operating license was issued by the Hungarian Financial Supervisory Authority on 10 January 2002. OTP Jelzálogbank started its operations as a specialized credit institution on 1 February 2002. The registered seat of the Company is located at 1138 Budapest, Váci út 135-139. D ép. and has no additional premises or branches.

The business profile of OTP Jelzálogbank is limited to the following: the granting of mortgage loans and determining the collateral value of real estate offered as collateral for such loans, the marketing of mortgage bonds for the financing of such lending and, via the trading of separate mortgage rights stipulated as collateral, the refinancing of the mortgage loans of commercial banks. The loan products comprise subsidized and unsubsidized housing loans and general-purpose mortgage loans.

In the period between 11 April 2002 and 4 August 2014, OTP Bank and OTP Jelzálogbank provided lending in a syndicated arrangement; since 2007, OTP Jelzálogbank has been disbursing loans of own origination as well. Since 2014 OTP Bank has acted as a preferred intermediary acting on behalf of OTP Jelzálogbank.

This business report is based on the unaudited consolidated semi-annual report of OTP Jelzálogbank as of 30 June 2024, drawn up in accordance with the International Financial Reporting Standards (IFRS) adopted by the European Union.

II. THE BUSINESS ENVIRONMENT OF OTP JELZÁLOGBANK

Following the acceleration of the US economy and the stagnation in the euro area in 2023, the tide turned in 2024, when America’s economy began to slow, while a recovery began in the eurozone. Inflation has already moderated notably across the board compared to the period fuelled by the rapid recovery from the Covid crisis and the subsequent energy crisis, but disinflation has decelerated even before reaching the target, primarily driven by the rapid rise in services prices, which was caused by the backward pricing applied by many service providers, as well as high wage dynamics owing to low unemployment. Yet the ECB started an easing cycle with a cautious 25-basis-points rate cut, but the decision-makers are not in a hurry to continue it. The Fed left its interest rates at historically high levels of 5.25–5.5%, but the first cut is on the horizon. Although developed markets’ bond yields subsided from the peaks hit in autumn 2023, they still significantly exceed the near-zero levels seen in previous years, and the view that the increase in the yield level will be permanent is becoming increasingly prevalent.

After the energy crisis that brought the eurozone to its knees, the economy practically stagnated between Q3 2022 and Q1 2024; then a 0.3% growth rate signified that recovery has begun, albeit later and slower than hoped. Inflation peaked around 10% in 2022, and was followed by strong disinflation in 2023, thanks to the drop in food and energy prices, but the drop in inflation also

stalled in Europe, near 2.5-3%, owing to more-stubborn-than-expected services inflation, fuelled by wage growth. Nevertheless, the ECB reduced its benchmark deposit and lending rates by 25 basis points to 3.75% and 4.25% in June 2023, but decision-makers warned to be cautious about its continuation. Ending a sharp fall after the peaks in autumn 2023, Germany's 10-year Bund yield is already on the rise this year, hovering around 2.5%.

In the USA, the momentum of growth fuelled by unprecedented fiscal easing appears to be running out of steam. Following the previous consistently strong data, now mixed results are released, indicating decelerating growth and inflationary pressure, but there have been no signs of recession. The robust growth seen in the second half of 2023 was fuelled by consumption, which is showing signs of a slowdown this year, as pandemic savings are running dry, the cost of living rose, and borrowing became more expensive. In the first quarter, US GDP expanded by 1.4% (QoQ, annualized) following an average rate of around 4% in the previous two quarters. Inflation stalled in mid-2023 and is still far from the Fed's 2% target, but this is not a prerequisite for starting and easing cycle. The Fed keeps its key interest rates at 5.25-5.5%, but its communication is less and less hawkish, on the heels of weaker data on the economy and easing inflation. The US 10-year yield is stuck above 4%.

This year, Hungary's economy also started to recover from the 2023 recession, which was longer and deeper than in other countries of the CEE region. In the first quarter, GDP expanded by 0.8% QoQ, and by 1.1% YoY, but the structure of the growth is unfavourable. Net exports' contribution to growth reached 3 percentage points, as exports and imports both fell, but the latter to a greater extent. Consumption value added has fallen short of expectations.

Inflation peaked at 25.7%, ten percentage points higher than the region's average. Disinflation started in spring 2023, hit a low at 3.6%, then inflation started in April (as expected), and continued in May (4%), as the factors driving the previous strong disinflation are fading out. Due to favourable domestic factors, the interest rate reduction cycle that started from 18% in May 2023 continued until June 2024, when the MNB lowered its key interest rate to 7.0%. The MNB's communication promises data-driven monetary policy in the future.

The four-quarter rolling deficit of Hungary's budget (ESA methodology) fell to 5.7% of GDP in Q1 2024, from 6.7% in Q4 2023, mostly because of expenditure-related factors (investment, energy subsidies). This deficit is still higher than the government target of 4.5%. In order to stabilize the budget, the government announced new measures in July, from which it hopes to generate HUF 400 billion additional revenue.

After the balanced position in 2023, Hungary's current account is already in surplus this year. In Q1 2024, it ran a surplus of 1.5%, but the past few months show an even higher surplus of around 5% of GDP. Hungary's economy became a net debt repayer, so its net external debt decreased, but gross debt increased due to the government's euro bond issue, which also increased foreign exchange reserves, thus the foreign exchange reserve adequacy has improved.

The recession in the housing market has ended, the number of housing transactions and housing prices are both rising. Simultaneously, the demand for retail loans increased in 2024, which is also supported by the transformation of the system of subsidies. However, the activity in the corporate credit market was weak, just like elsewhere in the CEE region, owing to uncertain growth prospects, low capacity utilization in many sectors, weaker demand and lower prices in the commercial real estate market, as well as high nominal and real interest rates.

III. THE GOALS, STRATEGY AND BUSINESS PERFORMANCE OF OTP JELZÁLOGBANK

As a member of the OTP Banking Group, OTP Jelzálogbank formulates its plans and adopts its decisions in line with the Group's strategic objectives. Our aim is to retain our position as market leader in retail mortgage lending. The main target for 2024 is keeping the 30,8% market share of the outstanding amount of retail mortgage loans.

	New contract amount (HUF bn)				Market share	
	Market		OTP Group		OTP Group	
	2023	2024 H1	2023	2024 H1	2023	2024 H1
Housing loan	594.79	643.10	188.60	214.90	31.7%	33.4%
Home equity loan	90.92	41.39	29.28	14.84	32.2%	35.9%
Total	685.71	684.49	217.88	229.74	31.8%	33.6%

The mortgage lending market have been recovered in 2024. The amount of new domestic loan contracts of the same period last year have been risen by 220%. Thereof the new subsidized loan products have been risen by 250%, but it was mitigated by the 20% fall back of home equity loans. The 260% increase of the new mortgage loan contracts of OTP Group was well above the domestic average.

Disbursement volumes have been increased as well. The amount of HUF billion 217.3 of the new retail mortgage loans disbursed in the first half year was 204.8% of the same period last year. 93.4% of the disbursed retail mortgage loans was housing loan and 6.6 % was home equity loan.

OTP Jelzálogbank Zrt.	Loans disbursed (HUF bn)		
	2023 H1	2023	2024 H1
Housing loan	90.50	222.40	202.97
Home equity loan	15.60	28.80	14.34
Total	106.10	251.20	217.31

OTP Group market share of the outstanding amount of retail mortgage loans have been increased by 0.5% in the first six month of 2024.

	Closing balance (HUF bn)				Market share	
	National		OTP Group		OTP Group	
	2023	2024 H1	2023	2024 H1	2023	2024 H1
Housing loan	5,005.5	5,290.2	1,565.1	1,676.2	31.3%	31.7%
Home equity loan	733.8	711.2	210.7	207.0	28.7%	29.1%
Total	5,739.3	6,001.4	1,775.8	1,883.2	30.9%	31.4%

Jelzálogbank received a total of HUF 104.7 billion in loan repayments in the reporting period, including early repayments of HUF 44.7 billion.

As a result of significant amount of disbursements, net amount of the outstanding loans of OTP Mortgage Bank increased by HUF billion 104.1 (from HUF billion 1,666.4 to HUF billion 1,770.5)

In addition to the retail mortgage lending that constitutes its main profile, the Mortgage Bank also provides refinancing loans to commercial banks. Mortgage bank refinancing is implemented through the sale and purchase of standalone mortgage rights: the commercial bank sells to OTP

Jelzálogbank the independently marketable mortgage rights associated with the mortgage loans granted by it and, at the same time, makes a commitment to repurchase the mortgage rights. The mortgage loans remain on the balance sheet of the commercial bank, which bears the associated credit risks; the commercial bank also takes care of any client-related duties. In the event of non-performance by a commercial bank, the Mortgage Bank becomes the mortgagee of the standalone mortgage and the beneficiary of the receivable secured by it. Having launched its refinancing operations in 2017, OTP Jelzálogbank had refinancing arrangements with two commercial banks as of 30 June 2024; the principal outstanding under its refinancing loans amounted to HUF 165.0 billion in total.

Its property valuation business line is closely linked to its lending operations; the dynamism of the latter has a significant impact on valuation volumes. The business line had completed 36 thousand valuations in the first six month period 2024 but only 28 thousand in the same period 2023.

Renewal (maturity and new issue) of mortgage bonds was HUF billion 70.0, that is why nominal outstanding amount was affected only by FX rate change and resulted HUF billion 1,123.7. These resources are complimented by interbank refinancing and own funds.

Half year end total domestic outstanding mortgage bond data are not available at the date of the report preparation. According to quarterly data, market share of OTP Mortgage Bank in domestic mortgage bond market have been changed to 54,73%.

Mortgage bond market structure (nominal value):

	31.12.2023		31.03.2024	
	HUF bn	share	HUF bn	share
OTP Jelzálogbank Zrt.	1,117.5	53.34%	1,124.0	54.37%
Takarék Jelzálogbank Nyrt./MBH Jelzálogbank Nyrt.	387.2	18.48%	352.9	17.07%
UniCredit Jelzálogbank Zrt.	263.0	12.55%	263.0	12.72%
Erste Jelzálogbank Zrt.	155.5	7.42%	155.5	7.52%
K&H Jelzálogbank Zrt.	172.0	8.21%	172.0	8.32%
Total	2,095.2	100.00%	2,067.3	100.00%

As a result, it can be considered that OTP Group successfully took the advantage of the recovery from the last year's real estate market fallback in the first half year by increasing outstanding loan amounts and keeping its market leader position.

IV. THE MAIN RESOURCES AND RISKS OF THE COMPANY; RELATED CHANGES AND UNCERTAINTIES

IV.1. Market risks

The main line of business of OTP Jelzálogbank is the disbursing of mortgage loans; the Mortgage Bank secures the necessary funds for this operation mainly by selling publicly issued mortgage bonds and by relying on money and capital market sources. Due to the nature of its operations OTP Jelzálogbank is exposed to market risks.

Credit risk is the risk of financial loss arising from borrowers and interbank market counterparties defaulting on their contractual obligations to OTP Jelzálogbank. The Mortgage Bank aims to maintain the good credit quality of its mortgage loan portfolio; for more details, see Chapter "VII. The mortgage loan portfolio".

Structural differences between OTP Jelzálogbank's assets and liabilities — maturity, interest, currency mismatches — expose the Mortgage Bank to interest rate and exchange rate risks. It manages these market risks through the terms for the mortgage bonds marketed and by contracting derivatives transactions. OTP Jelzálogbank aims for a risk-neutral position in its asset-liability structure. Its aim is to develop and maintain a position where assets and liabilities are hedged in an aggregate manner through a dynamic approach to the indicators listed.

The prepayment of mortgage loans represents a risk for OTP Jelzálogbank and constitutes a risk component impacting on asset-side terms and profitability. The refinancing risks associated with OTP Jelzálogbank's maturing bonds are of special significance.

IV.2. Operational risk

Operational risk means the probability of losses arising from any inadequately defined or incorrectly executed business processes, damage caused by people or inadequate operation of systems, or losses originating from the external environment. OTP Jelzálogbank works on keeping its operational risks to a minimum through constant control and strict demarcation of its internal processes and operations, and by raising risk awareness. Operational risks may arise in all banking processes due to their nature; accordingly, OTP Jelzálogbank also has responsibilities in relation to managing such risks. OTP Jelzálogbank manages its operational risks through tight internal control mechanisms and relying on a uniform group-wide methodology implemented in conjunction with OTP Bank.

IV.3. External risk factors

Banking and financial services are highly exposed to changes in different economic factors. Adverse changes in the economic environment may have a negative impact on the financial management of OTP Jelzálogbank through a variety of factors: on the portfolio of previously disbursed loans through the solvency of debtors, on the volume of new mortgage loans through market demand, and on the financing costs of OTP Jelzálogbank through the money and capital markets.

IV.4. Legal and regulatory risks

It cannot be excluded as a possibility that the government of the day or the Hungarian National Bank (MNB) adopts an economic policy, budgetary or monetary measures that may influence the Hungarian financial market, the real estate market or real estate financing directly or indirectly and thereby have a direct or indirect impact on the profitability of OTP Jelzálogbank.

Changes in banking law, company law, contract law, property law, bankruptcy law, competition law, securities law, mortgage law and other regulations carry significant risks; unpredictable changes to Hungarian and European Union legislation may have direct and indirect effects on OTP Jelzálogbank's business operations and profits.

Changes to taxation may also constitute a risk factor.

IV.5. Compound risks

The risks listed in this chapter may arise simultaneously and be mutually reinforcing; examples have included the COVID-19 pandemic and the extraordinary government measures and their underlying risks; detailed information on these is available in the chapters "The mortgage loan portfolio" and "Evaluation of the six month period ended 30 June 2024 financial management of OTP Jelzálogbank".

V. EVALUATION OF THE SIX MONTH PERIOD ENDED 30 JUNE 2024 FINANCIAL MANAGEMENT OF OTP JELZÁLOGBANK

The macroeconomic background to the Group's financial management was an inflationary environment, a slow economic growth, and government decisions taken to deal with the consequences. The most impactful of these measures was the repeated extension of legislation on the interest rate cap for variable-rate loans; this will continue in the whole reporting year.

OTP Jelzálogbank retained its market leading position on both the mortgage lending market and the mortgage bond market.

Audited consolidated IFRS figures of OTP Jelzálogbank as at 30 June 2024

The balance sheet total as at 30 June 2024 amounted to HUF 2,510.1 billion, up 4.8% on the previous yearend. The Group closed the year with after-tax loss of HUF 3.9 billion.

Some illustrative financial management figures:

figures in HUF million

Consolidated indicators	30.06.2023	31.12.2023	30.06.2024	Variance 2024 H1 vs. 2023	Variance 2024 H1 vs. 2023 H1
Total assets	2,136,845	2,395,966	2,510,109	114,143	373,264
Loan portfolio	1,614,262	1,664,166	1,768,077	103,911	153,815
Amounts due to banks	1,000,812	1,117,388	1,228,543	111,155	227,731
Mortgage bond portfolio	985,559	1,122,699	1,138,993	16,294	153,434
Shareholder's equity	110,28	132,395	129,817	-2,578	19,537
P&L for the reference year	-11,426	10,909	-3,918	-14,827	7,508

Alternative performance indicators	30.06.2023	31.12.2023	30.06.2024	Variance 2024 H1 vs. 2023	Variance 2024 H1 vs. 2023 H1
Leverage ratio	5.27%	5.62%	5.83%	0.21%	0.56%
Liquidity Coverage Ratio	689.86%	1,187.23%	786.74%	-400.49%	96.88%
Return on equity	-9.73%	8.49%	-2.99%	-11.48%	6.74%

As a result of current-year loss, equity decreased by 1.8%. The Company has consistently met the capital adequacy ratio requirements set out by law. At the end of June 2024, the Mortgage Bank's own funds amounted to HUF 132.7 billion and the closing value of the capital adequacy ratio was 16.5%.

In the individual financial statement of OTP Jelzálogbank, the total value of participations amounted to HUF 4,113 million, which value is no longer shown in the consolidated financial statement due to capital consolidation.

V.1.1. OTP Ingatlanpont Kft.

In December 2016 OTP Jelzálogbank acquired a 100% ownership share in OTP Ingatlanpont Kft.

OTP Ingatlanpont Kft. generates revenues from the commissions received for real estate agency services, which constitute its main profile.

OTP Ingatlanpont Kft.'s approved business plan for 2024 set the objectives of expanding property sales and real estate agency services. Its aim was to achieve an optimal operating size for its sales network, increasing commission income and improving efficiency. As a result of implementing these objectives, OTP Ingatlanpont Kft. reported a HUF 1 million loss (IFRS loss after-tax) in the six month period ended 30 June 2024, HUF 229 million less than planned.

From 3.6% achieved in the previous year, OTP Ingatlanpont Kft.'s market share decreased to 3.1%. As of 30 June 2024 the sales network was operating out of 30 offices of its own and at 50 premises of strategic partners.

V.1.2. OTP Pénzügyi Pont Zrt.

In June 2019 OTP Jelzálogbank purchased the 100% share of OTP Pénzügyi Pont Zrt. as the latter is now focused primarily on selling mortgage banking loan products in the wake of the collapse in demand for housing savings products.

The main objective of OTP Pénzügyi Pont Zrt. was to establish a nationwide sales network that would also reach the households that are not included in the retail client base of OTP Bank and offer them the full product range of OTP Banking Group.

Until October 2018 housing savings contracts were the focus products of the sales network. The sales network had to be reorganized when the government ended the subsidies for this product type. Following that reorganization, its focus shifted to loan brokerage services. OTP Pénzügyi Pont Zrt. earns practically all its revenues from commissions.

Pénzügyi Pont Zrt. made a loss of HUF 210 million in the six month period ended 30 June 2024, (IFRS), HUF 83 million less than planned. In order to offset the fall in equity due to this loss, its capital was increased by HUF 350 million in May 2024, as of the end of June 2024 balance sheet total amounted to HUF 605 million.

V.1.3. I-gen.hu Kft.

I-gen.hu Pénzügyi Szolgáltató Kft. was acquired by OTP Ingatlanpont Kft. on 20 January 2023. The primary objective in buying I-gen.hu Kft. was to improve the value proposition of OTP Pénzügyi Pont Zrt. on the tied agent market, compensating for the loss of clients who refuse OTP Bank's products by presenting the offers of other banks, and creating a framework for the objective monitoring of competitors. The balance sheet total of I-gen.hu Kft. is not significant compared to the consolidated balance sheet total.

VI. THE SECURITIES ISSUANCE OPERATIONS OF OTP JELZÁLOGBANK

VI.1. Asset-liability management

OTP Jelzálogbank follows a conservative treasury policy, the primary objective of which is to ensure the most adequate funding for its lending activities both in the short and the long term while also minimizing market risks. Its main objective is to have a profitable portfolio of loans and mortgage bonds with minimal risk, and matching the assets and the liabilities of the Mortgage Bank to the greatest possible extent in respect of term, currency and interest rate.

In its medium-term strategic plan, it remains a top priority for OTP Jelzálogbank in 2024 to secure the cheapest possible sources of funding for mortgage lending by both the Mortgage Bank and the entire Banking Group. A further important objective is to participate in group-wide product development and asset-liability management within OTP Group, helping both the Mortgage Bank and OTP Group retain their market positions.

VI.2. Bond issuance

Mortgage bond issuances play an important role in shaping the asset-liability structure of OTP Jelzálogbank. Priorities to consider when devising the terms and conditions for mortgage bonds to be marketed include alignment between medium- and long-term maturities, managing interest rate and currency risks, contributing to an optimal group-wide asset-liability structure at OTP Group

and ensuring that the mortgage funding adequacy ratio stipulated in the MNB Decree on the alignment of the maturities between mortgage based assets and liabilities of credit institutions is complied with at all times.

In the period ended June 2024 OTP Jelzálogbank issued mortgage bonds for a nominal value of HUF 70 billion under its domestic issuance scheme. As of the end of June 2024, OTP Jelzálogbank had mortgage bonds for a total nominal value of HUF 1,123.7 billion in circulation (the HUF value of its bonds denominated in euros was calculated at the official foreign exchange rate of the MNB as of the end of the year).

VI.3. Money and capital market transactions

In addition to equity and the mortgage bonds issued, the sources of funding used by OTP Jelzálogbank also include interbank loans, among them loans from OTP Bank and Magyar Nemzeti Bank. As is the case with the issuing of securities, the primary objective of money and capital market deals is to provide liquidity on a continuous basis, hedge financial risks and comply with the legislative requirements concerning liquidity. Free cash is invested solely in government securities or deposited with OTP Bank via the interbank market. As of the end of June 2024 the nominal value of the government securities held by OTP Jelzálogbank amounted to HUF 322.7 billion.

VII. THE MORTGAGE LOAN PORTFOLIO

VII.1. Portfolio structure

The following two tables present the breakdown of the client loan portfolio by tenor and by region.

Loan portfolio breakdown by tenor		
tenor	31.12.2023	30.06.2024
0 to 5 years	4.05%	3.57%
5 to 10 years	11.73%	10.80%
10 to 15 years	14.90%	14.80%
15 to 20 years	33.45%	33.53%
over 20 years	35.87%	37.30%
Total:	100.00 %	100.00 %

Loan portfolio breakdown by region		
region*	31.12.2023	30.06.2024
Central Region	44.06%	43.82%
Southern Great Plain Region	10.99%	10.89%
Southern Transdanubia Region	8.22%	8.52%
Northern Transdanubia Region	19.34%	19.08%
North-East Hungary Region	17.39%	17.69%
Total:	100.00 %	100.00 %

**Due to reorganization at OTP Bank, the regional structure of the Group differs from what is presented in the table; for risk management purposes, the data are still categorized into these five regions*

There was a significant year-on-year increase in the proportion of loans with a tenor of more than 10 years within the portfolio. In both periods most loans are in the tier of tenors of more than 20 years.

There were no material changes in the regional distribution.

In addition to lending to clients, there was a significant volume of refinancing via redemptions of standalone mortgage rights (hereinafter: refinancing loans); the book value of loans to credit institution partners was HUF 165 billion as of the end of June 2024.

VII.2. Portfolio quality

The receivables of OTP Jelzálogbank in a breakdown by days overdue:

Gross IFRS portfolio (HUF bn)	31.12.2023	30.06.2024	Change
A (0-30 days)	1,661.2	1,763.9	102.7
B (31-60 days)	5.7	5.8	0.1
C (61-90 days)	2.8	3.2	0.4
D (91-180 days)	4.7	4.7	0.0
E (180+ days)	8.5	8.0	-0.5
Total	1,682.9	1,785.6	102.7
A (0-30 days)	98.71%	98.78%	0.07%
B (31-60 days)	0.34%	0.32%	-0.02%
C (61-90 days)	0.17%	0.18%	0.01%
D (91-180 days)	0.28%	0.27%	-0.01%
E (180+ days)	0.50%	0.45%	-0.05%
Total	100.00%	100.00%	0.00%

As of the end of June, 2024 receivables more than 30 days overdue represented 1.22% of the total loan portfolio, 7 basis points lower than at the end of the previous year. There was a small increase in the proportion of debtors more than 90 days in arrears.

Facility rating and impairment calculation are subject to rules that are standardized across the Banking Group. In the impairment calculation model, the expected loss and impairment amounts are calculated on the basis of default categories, product/product group, collateral, credit risk stages (performing, showing significant increase in credit risk, non-performing) and fact of restructuring, as well as the expected recovery on the individual collateral items for the transaction. As of 30 June, 2024 impairment recognized on client loans amounted to HUF 15.2 billion.

Although the refinancing loans are not in arrears, impairment must be raised for them under the IFRS9 standard; the half-year-end impairment figure was a mere HUF 126 million.

The Bank sold all loans where extensive debtor protection and collection measures failed. In the first half year of 2024 this meant selling a total of HUF 1,717 million in loan receivables.

VII.3. Foreclosures

As mentioned in the section above, OTP Jelzálogbank tends to sell the receivables where it is unable to restore contractually compliant performance. The disposal of a receivable generally follows its cancellation but may also precede it in certain product groups. No new foreclosures were brought in either 2023 or 2024. As of the end of June, 2024 there were no loans subject to foreclosure in the portfolio of OTP Jelzálogbank.

To date, the Mortgage Bank has not taken advantage of its right under the law to take over or buy real estate subject to its mortgage rights in a foreclosure proceeding.

VIII. NON-FINANCIAL STATEMENTS PUBLISHED DUE TO STATUS AS PUBLIC-INTEREST ENTITY

OTP Jelzálogbank does not classify as a public-interest entity under Section 95/C of Act C of 2000 and is therefore not obligated to publish non-financial statements. Nevertheless, in view of the significant role the Banking Group plays both within Hungary and internationally, information relevant to this topic is presented briefly below.

VIII.1. Short description of the Company's business model

The main profile of OTP Jelzálogbank Zrt. includes

- financing the construction, purchase, modernization and refurbishing of residential real estate,
- determining the market and collateral values of properties, and
- issuing mortgage bonds and
- providing refinancing loans for commercial banks.

Its portfolio comprises first of all non-subsidized HUF-denominated home and general-purpose loans of own origination, combined with a purchased portfolio comprising mainly government-subsidized housing loans as well as housing and general-purpose mortgage loans. In 2024 OTP Jelzálogbank granted HUF-denominated subsidized and unsubsidized home and general-purpose mortgage loans to clients and refinancing loans to commercial bank partners via contracts for the redemption of standalone mortgage rights. These loans are sold by OTP Group and third-party financial intermediaries under agency agreements. The other main pillar of its business model is the issuance of mortgage bonds, firstly to provide finance for the Bank's lending activity and secondly to achieve compliance with the laws applicable to certain government-subsidized retail mortgage loan products.

The operations of OTP Jelzálogbank and OTP Group are closely interlinked:

- in selling the loans, OTP Group plays a significant role as an intermediary;
- the development and regulation of retail mortgage products is done by OTP Jelzálogbank in conjunction with the Retail Lending Tribe of OTP Bank. The approval process is fully automated; the OTP Bank branch network and OTP Jelzálogbank use electronic systems to approve the loan applications;
- much of the retail loans in OTP Jelzálogbank's portfolio are financed via mortgage bond issuance. OTP Jelzálogbank works with OTP Bank's Global Markets Directorate in the marketing process;
- the corporate current account, the employer housing fund account and the FX nostro accounts of OTP Jelzálogbank Zrt. are managed by OTP Bank;
- OTP Jelzálogbank rents its offices from OTP Real Estate Fund. In order to take advantage of the economies of scale inherent in putting in place a shared technical infrastructure, certain financial, accounting, reporting, risk management and information technology roles are performed on behalf of OTP Jelzálogbank by the Shared Service Centre, which was created virtually from the relevant organizational units of OTP Bank.

The Group does not carry out research and development activities.

VIII.2. Policies on environmental protection, social and employment matters, respect for human rights, anti-corruption and anti-bribery

With the exception of employment policy, OTP Jelzálogbank has not adopted its own policies on these matters, given the nature of its operations, therein especially the resource usage and operational circumstances of the tasks carried out on its behalf by entities other than OTP Group member companies. The reasons for this and a description of the results are provided in the sections below. Chapter IX contains a summary of the results of the Company's employment policy.

VIII.3. Environmental protection

The Banking Group and therein OTP Jelzálogbank do not have operations hazardous for the natural environment and, accordingly, they do not incur material risks in this respect. The Company still pays special attention to reducing energy and paper use in the course of its operations and services by increasing the electronic flow of information, and organizing its operations taking into consideration the criteria of environmental protection.

Further, OTP Jelzálogbank is committed to helping achieve environmental protection and climate goals. To this end, in 2021 the Company created its Green Strategy and Green Mortgage Bond Framework, which formalize the principles and objectives enabling the Mortgage Bank to facilitate the protection of the environment in an efficient and active manner. The Company was the first in Hungary to join the Energy efficient Mortgages Action Plan (EeMAP) initiative promoting energy efficient mortgage lending; in doing so, it made a commitment to green lending and the creation of a green mortgage bond issuance framework. In 2021 OTP Mortgage Bank became the first operator on the Hungarian market to issue green mortgage bonds, the proceeds of which will be allocated for the purposes of financing green mortgage loans. In its Green Mortgage Bonds Report, published for the first time in 2022, the Company reported on its portfolio of green mortgage bonds and the environmental impacts achieved from such operations. The Company added the OTP Green Housing Loan to its product range in 2023.

In accordance with the Hungarian National Bank No. 10/2022. (VIII. 2) point 35 recommendation, in order to manage and control a credit institution's climate change-related and environmental risks, it is recommended to appoint a separate organizational unit, a dedicated function, or a manager. During the operation and activities of OTP Jelzálogbank, the increasing urge to properly manage sustainability and climate change measures, in 2024 the Company created a separate sustainability organizational unit (ESG). The ESG Department replaces and expands the previous functions of the Sustainability Officer at the Company.

VIII.4. Social and welfare issues, corporate social responsibility, respect for human rights

Both on its own and as a member of OTP Group, OTP Jelzálogbank supports the development of communities, sports, financial literacy and empowerment.

Respect for human rights is a priority for the Company in its relations with clients, business partners and employees alike. OTP Group lays special emphasis on this matter when drawing up its regulations, organizational processes, communications and complaints handling, and so does, indirectly, OTP Jelzálogbank as well; there are no material risks present in this respect. There are no significant risks regarding the respect of the human rights of the employees of OTP Jelzálogbank. Its achievements in this matter are clearly demonstrated by the fact that employee turnover is low and there are no complaints or lawsuits against it under labour law.

VIII.5. Material anti-corruption and anti-bribery risks

As a result of the division of labour within OTP Group, only a limited number of decisions may entail corruption/bribery risks.

Fight against corruption and against the practice of bribery

The Code of Ethics of OTP Bank Plc. and the OTP Group (https://www.otpbank.hu/static/portal/sw/file/OTP_EtikaiKodex_EN.pdf), the Partner Code of Ethics (https://www.otpbank.hu/static/portal/sw/file/OTP_Partneri_EtikaiKodex_EN.pdf) published in 2023 and the Anti-Corruption Policy of OTP Bank Group contains provisions on the fight against corruption and against the practice of bribery, also on the acceptance of individual differences and the denial of discrimination (https://www.otpbank.hu/portal/en/EthicalDeclaration_Anti_Corruption_Policy.pdf ([otpbank.hu](https://www.otpbank.hu))).

As it can be read in the foreword of the Code and the Anti-Corruption Policy as well, the OTP Group and its management have adopted the principle of zero tolerance towards corruption and bribery, taking a definite stance against all forms of corruption and giving full support to the fight against corruption. In addition, the Code states that "As a law-abiding and ethical institution, the Group and its entire management are committed to upholding and enforcing the law, including anti-corruption laws. We have zero tolerance for corruption and bribery – we strongly oppose all forms of corruption and support anti-corruption measures."

The OTP Group has set up a group level ethics reporting system (whistleblowing), which is for the reporting and the handling of the reports on suspected or actual violation of the values set forth in the Code of Ethics, where anonymous reporting of ethics issues is also possible. The OTP Group conducts inquiries for the purpose of detecting, preventing anomalies in connection with reports made or anomalies it became aware of otherwise.

The OTP Group has created and maintains its Code of Ethics to keep reputational risk and financial losses, which may incur in relation to corruption, bribery and discrimination, on a minimum level. Both employees and newcomers receive education on the Code of Ethics, and in addition, the acceptance to be bound by it is a prerequisite for their employment.

In addition, all business partners and clients are communicated about the Anti-Corruption Policy and procedures through the group level Code of Ethics and Anti-Corruption Policy published publicly on the OTP Bank Plc.'s website and from 2023 the Partner Code of Ethics has been published on the Bank's website as well. The OTP Group's Anti-Corruption Policy stipulates that, in view of the fact that existing and established relationships with contractual partners also contain the possibility of corruption, the OTP Group will act prudently in its dealings with contractors, in particular in the tendering and preparation process, to minimise the risk of corruption. The OTP Group establishes relationships with its contractual partners based on an assessment of professionalism, competence and competitiveness, and does not apply other non-professional selection criteria that contain the possibility of corruption.

Based on the Compliance's proposal, the prohibition of corruption will be reflected in the contractual and regulatory documents used by the OTP Group in a clearer and well-defined manner from 2023 onwards, through the inclusion of anti-corruption clauses in the business rules and standard contracts. The clause will state from the very beginning of the business relationship that the contracting partner accepts OTP Group's anti-corruption principles, including the prohibition of corruption and the consequences of breaching this prohibition, which can even be termination of contract.

Any requests from third parties affecting human rights are treated by the OTP Group as a priority. We manage the risks regarding the fight against corruption and bribery within the framework of our operational risk management process.

VIII.6. Non-financial key performance indicators relevant for specific business activities

Beyond non-quantifiable general customer satisfaction and compliance with the law, the most important performance indicators are all financial data.

IX. ORGANIZATIONAL STRUCTURE, EMPLOYMENT POLICY

In close cooperation with OTP Bank and taking advantage of the synergies within OTP Group, OTP Jelzálogbank structures its organization and determines the optimal employee headcount based on the nature and the amount of the tasks to be delivered. Loans are sold via the branch network of OTP Bank, which has decades of experience in this field, and also via the increasingly important sales partners, while a centralized organizational unit with nationwide coverage contributes to offering clients an ever wider range of services. OTP Bank performs financial, accounting, reporting, risk management and information technology services for OTP Jelzálogbank under a separate agreement.

Organizational structure

The organizational structure of the Company is determined mainly by the types of operations performed by it. The day-to-day work of the Company is managed and overseen by the Chief Executive Officer. The Chief Executive Officer of the Company and the Deputy CEOs responsible for general matters and for property valuation assess the risks of initiatives and ensure that resources are used economically and that operations serve the best interests of the Company's shareholder. The operational structure comprises one department (reporting directly to the Deputy CEO responsible for property valuation) and four business lines (overseen by the Deputy CEO responsible for general matters); in order to achieve greater efficiency, management and control over these organizational units is shared by the Deputy CEOs in the way described above. The allocation of business lines is also subject to the higher-level management and oversight principles associated with the division of labour.

On the medium-term, the Company aims to develop its organization according to the following criteria:

- create a cost-effective organizational structure to support operations,
- adjust the headcount model to ensure legal compliance and meet market needs,
- continually improve the skills of human resources, support professional further training,
- employ highly qualified staff.

Employment policy

In addition to what is described in the section on its organizational structure, priorities in the Company's employment policy include:

- maintaining the real value of employee wages and providing competitive remuneration,
- developing a wide range of fringe benefits,
- creating a complex incentive scheme for employees to ensure all duties are performed,
- creating and operating in conjunction with OTP Bank a professional and advocacy scheme for employees.

The Company's employment policy includes employing and supporting disabled persons in accordance with prevailing law.

As of 30 June 2024 the Company had 40 active employees. The Company places emphasis on professional training for its employees, ensuring that it has access to highly trained staff at all times.

X. QUANTITATIVE AND QUALITATIVE PERFORMANCE MEASURES AND INDICATORS

Since it is subject to consolidated supervision together with OTP Bank Plc. pursuant to the decision of the Hungarian National Authority (previously: HFSA), OTP Jelzálogbank Zrt. is included in the institutional scope of the Banking Group's Remuneration Policy drawn up by OTP Bank Plc. as credit institution heading the Banking Group in accordance with the third amendment to the Capital Requirements Directive accepted by the European Union (2010/76/EU-CRD III) and the Act on Credit Institutions and Financial Enterprises, which transposed the former into Hungarian law.

Since 1 January 2011 OTP Jelzálogbank Zrt. has applied the requirements set out in the Remuneration Policy to all persons subject to that Policy. The following persons have been subject to the Remuneration Policy since 2017: the CEO and Deputy CEOs of the Company, the heads of its Treasury, Finance and Legal departments, and the internal auditor and compliance officer in active status.

OTP Jelzálogbank Zrt. uses the following types of quantitative and qualitative indicators to measure performance against the requirements laid down in the Banking Group's Remuneration Policy:

- company-level indicators,
- personal tasks and goals.

As a general rule, the Remuneration Policy grants stakeholders who meet the specified indicator values the benefits available for such performance with short-term and 4-year deferrals, providing the deferred parts in equal quarterly proportions, combining shares and cash, thus facilitating the long-term commitment of these persons to the continued preservation of the Company's profitable operations. Managers subject to the Remuneration Policy who do not reach the cap defined were given the opportunity to opt for performance remuneration without postponement, which involves providing benefits only in cash.

XI. DECLARATION ON RESPONSIBLE CORPORATE GOVERNANCE PRACTICES

In the course of its operations OTP Jelzálogbank fully complies with all laws, supervisory rulings and other rules and regulations applicable to it. The structure and operational conditions of the Company are described in the Organizational and Operational Regulations adopted by OTP Bank. As a company with a registered seat in Hungary, OTP Jelzálogbank operates a corporate governance system that satisfies the requirements laid down in Act V of 2013 on the Civil Code (hereinafter: Civil Code), an act of law that also regulates business entities. As a specialized credit institution conducting banking operations, OTP Jelzálogbank also complies with the legal requirements applicable to credit institutions, including especially Act CCXXXVII of 2013 on Credit Institutions and Financial Enterprises (hereinafter: Credit Institutions Act) and Act XXX of 1997 on Mortgage Banks and Mortgage Bonds (hereinafter: Mortgage Bonds Act).

Accordingly, the Company adheres to the mandatory corporate governance rules prescribed in law and publishes its Statutes and the composition of its management bodies on the OTP Jelzálogbank website. OTP Jelzálogbank does not deviate from the legally prescribed mandatory corporate governance rules but puts into practice all their requirements.

OTP Jelzálogbank does not apply a diversity policy to its administrative, executive and supervisory bodies as this is not mandatory for it under governing law due to its market share measured in terms of balance sheet total.

XI.1. Management bodies

XI.1.1. Board of Directors

The management body of the Company is its Board of Directors. The scope of authority of the Board of Directors is prescribed in the Company Statutes, the Founder's resolutions and the rules of procedure of the Board of Directors. The rules of procedure define the structure and operation of the Board of Directors, the duties pertaining to preparing for and administering its meetings and drafting its resolutions, as well as other matters relevant for the operations of the Board of Directors. The Board of Directors supervises the work of the management and produces an annual report to the founding shareholder about the management, financial standing and business policy of the credit institution. The Board of Directors exercises employer's rights over the Chief Executive Officer and the Deputy CEOs.

The members of the Board of Directors are selected by the founding shareholder. As of 30 June 2024 the Board of Directors had 8 members, 3 of whom are internal members (employed by the Company), which is more than the legally required 2.

The Board of Directors are bound by all the obligations and legal prohibitions stipulated by Act CCXXXVII of 2013 on Credit Institutions and Financial Enterprises (Credit Institutions Act) in respect of senior executives.

The meetings of the Board of Directors are minuted and its resolutions are documented.

The Board of Directors of OTP Jelzálogbank on 30 June 2024:

Antal Kovács – Chairman of the Board of Directors

András Becsei – CEO and internal Member of the Board of Directors

Ákos Fischl – Deputy CEO and internal Member of the Board of Directors

Csaba Nagy – Deputy CEO and internal Member of the Board of Directors

Anna Mitkova Florova – external Member of the Board of Directors

Zoltán Roskó – external Member of the Board of Directors

Attila Kovács – external Member of the Board of Directors

Balázs Együd – external Member of the Board of Directors

XI.1.2. Supervisory Board

The management and the business processes of the Company are supervised by the Supervisory Board, which is the supreme supervisory body of the Company.

The Supervisory Board establishes its own rules of procedure, which are then approved by the founding shareholder. The members of the Supervisory Board are selected by the founding shareholder for a period of five years. In its supervisory role the Supervisory Board may request information or explanations from Members of the Board of Directors and managers and other employees of the Company. The Supervisory Board may also examine, or have examined by an expert, the books and documents of the Company.

The Supervisory Board is entitled to examine all the material business policy reports to be presented to the founding shareholder of the Company, and all proposals pertaining to issues falling within the exclusive competence of the founding shareholder.

Professional oversight of the internal audit function also falls within the competence of the Supervisory Board. The Supervisory Board manages the internal audit organization of the Company in compliance with the requirements set out in the Credit Institutions Act and within the framework of that Act. The Supervisory Board exercises its right to advance consent when decisions are made on concluding or ending an employment contract with the internal auditor; it also formulates recommendations and proposals on the basis of internal audit findings.

The Supervisory Board exercises its rights as a body or through its members but it may also distribute its duties among its members on a permanent basis.

The Supervisory Board holds quarterly meetings. Meetings must be convened if requested by at least one member of the Supervisory Board or the Board of Directors or the statutory auditor, also specifying the reason and the purpose in writing.

The Supervisory Board of OTP Jelzálogbank on 30 June 2024:

József Németh – Chairman of the Supervisory Board

Ágota Selymes – Member of the Supervisory Board

Gergely Pókos – Member of the Supervisory Board

dr. Róbert Csató – Member of the Supervisory Board

XI.1.3. Other committees

Management Meeting

The Management Meeting is a decision-making, decision-preparation and consultative standing committee of the Company; its operational rules are set out in its rules of procedure. The committee makes decisions on matters referred to it and on matters individually not regulated and pertaining to the operation of the credit institution.

Effective from 2021, the Management Meeting has acted as the Green Mortgage Bond Committee within the Company's Green Mortgage Bond Framework.

OTP Mortgage Bank has not established an independent Audit Committee, the functions of the Audit Committee are performed by the Audit Committee of the Founding Shareholder pursuant to Section 157 (5) of the Hungarian Credit Institutions Act.

In 2024 H1, the board meetings of directors and the board meetings of the supervisory board were held 2 times, during these meetings the Board of Directors adopted 20 resolutions and the Supervisory Board adopted 16 resolutions. In addition to the meetings, the Board of Directors adopted 35 resolutions via written vote and the Supervisory Board adopted 6 resolutions via written vote.

XI.2. System of internal and external controls

The main function of the internal audit system is to protect the assets of clients and the Company and the interests of the shareholders, and to control the Company's operations to facilitate its

compliance with the law. The internal control system extends to all organizational units and activities of the Company.

In order to underpin efficient auditing and reporting processes, the internal control system comprises multiple interconnected controls. In-process and managerial control along with the independent internal auditor and the management information system constitute the components of the internal control system.

The Risk Assumption Strategy defines a risk management framework as well as the principles and guidelines for risk assumption for the whole of OTP Group.

Ultimate powers regarding key risk management decisions and the main risk topics of group members reside with the risk committees of the Banking Group Members; in the case of OTP Jelzálogbank this is the Management Meeting.

To support the reporting processes, the bank's risk management system includes identifying risks, assessing and analyzing their impacts, devising the necessary action plans and monitoring their efficiency and outcomes. The management adopts business decisions in full awareness of all the important risks. All material risks associated with internal and external operations and compliance with financial and legal requirements and many other risks are assessed and managed in a well-defined and transparent internal mechanism.

XI.2.1. IT Controls

Applications are developed by either in-house group resources or by third parties. OTP Bank applies administrative, logical and physical control measures commensurate with the risk in order to protect the IT systems storing and processing data, as follows:

- access to data/systems is only possible on the basis of a predefined authorisation management process that applies the principle of least privilege, ensures segregation of responsibilities, that has regular access right reviews and ensures that dismissed employees' access is revoked in a timely manner;
- user authentication, authorisation and password management processes are controlled by policies and audited;
- the systems have test and development environments with appropriate separation from the production environments that have a secure change management procedure, which ensures that program developments or modifications can only be deployed to the operational environment after proper, controlled testing and approval;
- systems are protected by appropriate network perimeter protection, various security devices and network segmentation, furthermore all network communications are protected with state-of-the-art encryption;
- the IT systems that store and process data are regularly backed up and backup media is stored in controlled premises with adequate protection for long-term retention, and the organisation carries out regular backup restore tests;
- adequate redundancy is applied for IT systems that store and process data to ensure business continuity and disaster resiliency;
- has developed DRPs and BCPs for critical systems and critical business processes, which are regularly tested and reviewed;
- the Bank collects and retains the complete log of all major IT operations and IT security relevant data processing activities and the confidentiality, availability, integrity, authenticity and non-repudiation of these audit logs are ensured;
- there is a continuous, up-to-date protection against malicious codes;
- it ensures the regular implementation of vendor patches and updates for the environments used;
- it uses a data leakage protection (DLP) solution to reduce the risk of inadvertent data loss;

- it ensures the continuous monitoring of the operation events of the physical and virtual environment system elements with automated event detection and management tools;
- the above measures are documented at an appropriate level, which ensures the traceability of the implementation of data security requirements in a transparent manner;
- it ensures permanent secure deletion of the data stored on the media, the destruction of the media and the documentation of the destruction of the media during secure operational media disposal processes;
- it enforces data protection requirements already at the design stage of the implementation of the IT systems storing and processing personal data and of the systems operational processes related to them;
- acquire and maintain ability to adequately handle application related security events (including cyber threats), entailing prevention, detection, identification, isolation, analysis, recovery and reporting;
- remote work is regulated in a controlled and documented way, remote device and user access is protected with multi-factor authentication;
- ensures IT security compliance by its managed regulative framework;
- revision and update of IT security regulations bi-yearly or in a frequency complying legislative requirements or upon major changes;
- ensures vulnerability assessments and penetration tests are carried out as planned;
- defines pools for categorization of installed software into preferred, allowed and prohibited and ensures compliance to that policy.
- it ensures that its employees have adequate knowledge of data protection requirements and provides regular data protection and information security awareness training for them.

XI.2.2. Internal audit

The Company employs an independent internal auditor who reports to the Supervisory Board within a framework defined by the Credit Institutions Act. The independent internal auditor has a medium-term auditing strategy and an annual audit plan approved by the Supervisory Board. The independent internal auditor works on the basis of the annual workplan approved by the Supervisory Board and reports regularly to the Board of Directors and the Supervisory Board.

The independent internal auditor helps the legal and profitable management of assets and liabilities and the protection of private property, supports safe and secure business operations, ensures the efficiency, cost-effectiveness and results of internal control systems, contributes to minimising risk and, in conjunction with the Compliance area, identifies and reports any deviations from legal requirements and internal regulations, proposes ways to eliminate shortcomings and monitors the implementation of measures. They perform this role with objectivity, solely on the basis of professional considerations. Their independence is guaranteed by the fact that they report to the Supervisory Board within the framework defined by the Credit Institutions Act.

XI.2.3. Risk management

The Company has detailed risk management rules covering all types of risk; these rules are aligned with legislation on prudent banking operations.

The risk management system includes identifying the risks, assessing and analyzing their impacts, devising the necessary action plans and monitoring their efficiency and outcomes. The management adopts business decisions in full awareness of all the important risks. All material risks associated with internal and external operations and compliance with financial and legal requirements and many other risks are assessed and managed in a well-defined and transparent internal mechanism.

The Company works closely with the Risk Management and Strategy and Financial Divisions of OTP Bank in exercising functional control in accordance with the Banking Group's risk management guidelines, methodology and infrastructure, for the purpose of developing a clearly defined, transparent and standardized credit, country, counterparty, market and operational risk management system at group level satisfying the Basel requirements and meeting the expectations of the Regulator as well as aligning with the local environment. Group-level risk management is based on a standardized organizational structure and the implementation of regulations and procedures by the subsidiaries.

Credit risk

The Bank manages exposures to credit risk by producing regular analyses of the interest payment and principal repayment ability of debtors and potential debtors and, if necessary, changing the borrowing limits. Another means for managing credit risk is to obtain collateral items and corporate and personal guarantees.

Market risk

Market risks originate from open positions on securities and other instruments. The Bank does not have material exposures to market risk. Market risk exposure is monitored and controlled mainly by the Asset and Liability Management Directorate of OTP Bank.

Net currency position and currency risk

The Bank controls its currency positions against the limits on open positions required by Magyar Nemzeti Bank as well as its own system of limits. The Bank also uses the VaR model for measuring its open currency positions.

Interest rate risk

Most of the Bank's interest-bearing assets and liabilities are designed in such a way that short-term assets are aligned with short-term liabilities or that the mid-year variation of the interest rates on long-term assets and long-term liabilities is possible, or that changes to the interest rates on long-term assets and the related long-term liabilities are synchronized.

In addition to the above, a wide interest margin between the various interest-bearing assets and interest-bearing liabilities offers the Bank a high degree of flexibility in managing interest rate differences and interest rate risk.

Liquidity risk

Liquidity risk measures the extent to which the Bank would need to increase its liquid assets in order to meet its liabilities from financial instruments in a timely manner. The Bank manages its liquidity position in accordance with the principles defined by the MNB.

Policy on hedging transactions

The Bank uses hedge accounting as follows: identifying hedging transactions, producing appropriate hedging documentation, conducting efficiency checks, and evidencing efficiency on the basis of their results.

XI.2.4. Compliance

In accordance with European Union and Hungarian legislative requirements the Company employs a dedicated Compliance Officer responsible for identifying and managing compliance risks and ensuring compliance with the law and prudent operations. In line with Recommendation no. 27/2018. (XII.10.) of the Magyar Nemzeti Bank, in which it recommends internal lines of defence to be established and operated also at group level and that the governing financial entity should set up and operate a governance and oversight function over the group members, the Compliance Officer performs compliance duties predicated on the same principles as the Compliance Policy of OTP Bank, the Company's parent bank. The Compliance Officer carries out their tasks on the basis of the Compliance Workplan approved by the Board of Directors of the Company. At least once every year the Compliance Officer produces a comprehensive report for the Board of Directors and the Supervisory Board, as required by the Credit Institutions Act and with the content required by the law.

XI.2.5. Data Protection Officer

The Company employs a Data Protection Officer to comply with EU and Member state data protection regulations. The status and the duties of the Data Protection Officer are described in the Company's Organizational and Operational Regulations and its Data Protection and Data Security Regulation, as amended from time to time. The most important task of the DPO is to help the Company achieve compliance with the rules on the protection of personal data, doing so in the manner provided for in law. Among other things, the DPO provides information and professional advice to the Company and its employees responsible for data processing as regards their obligations under EU or Member State data protection provisions, and monitors compliance with the Company's internal regulations on the protection of personal data. At least once a year, the Data Protection Officer presents to the Board of Directors a proposal and/or information note approved by the Management Meeting, describing the DPO's activities in this respect.

XI.2.6. Auditor

The books of OTP Jelzálogbank are audited by Ernst & Young Könyvvizsgáló Kft. (Cg. 01-09-267553).

The decision to select the statutory auditor entity and to appoint the member personally responsible for the audit resides with the founding shareholder.

Ernst & Young Könyvvizsgáló Kft. hasn't provided OTP Jelzálogbank any non-auditing services in the first six month of 2024.

XI.2.7. Coverage supervisor

OTP Jelzálogbank retains a coverage supervisor to perform the tasks required in Act XXX of 1997 on Mortgage Banks and Mortgage Bonds. The coverage supervisor checks and confirms the availability at all times of the required coverage for the mortgage bonds and ensures that the mortgaged assets serving as ordinary coverage for the mortgage bonds, their land register data and collateral values as well as the ordinary and the additional collaterals are registered in the coverage records.

The Coverage Supervisor for OTP Jelzálogbank is KPMG Hungária Kft. (Cg.01-09-063183).

XI.2.8. Disclosure

The Company complies with the disclosure requirements applicable to its activities by adhering to the provisions in Act CXX of 2001 on the Capital Market (Capital Market Act), Act CCXXXVII of 2013 on Credit Institutions and Financial Enterprises (Credit Institutions Act) and Regulation (EU) No 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and investment firms (CRR). OTP Jelzálogbank satisfies its annual disclosure obligation through disclosure on its own website (www.otpjzb.hu), the website of the Budapest Stock Exchange (www.bet.hu) and a dedicated website operated by Magyar Nemzeti Bank (www.kozzetetelek.hu).

The Company has detailed internal regulations in place regarding insiders and potential insider persons; these regulations are fully compliant with the limits and prohibitions defined in the prevailing Capital Market Act. The persons concerned receive appropriate information from the Compliance department regarding the prohibitions applicable. The regulatory and record-keeping duties associated with insider trading and insider persons are the responsibility of the Compliance Officer of the Company, with information systems constantly being enhanced in order to deliver these duties efficiently.

XII. DECLARATION BY OTP JELZÁLOGBANK ZRT.

In the Half-yearly Report the unaudited condensed consolidated Financial Statements produced in line with the applicable accounting requirements and the International Financial Reporting Standards (IFRS) adopted by the European Union present a true and fair view of the assets, liabilities, financial position and profit/loss of OTP Jelzálogbank Zrt. as issuer of mortgage bonds.

The Management Report offers a fair view of the position, development and performance of OTP Jelzálogbank Zrt. as an issuer of mortgage bonds, describing the main risks and uncertainties.

OTP Jelzálogbank Zrt. has a liability for compensating for damage caused by misleading content in the Half-yearly Report.

OTP MORTGAGE BANK LTD.
NOTES TO UNAUDITED, CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTH PERIOD 30 JUNE 2024

NOTE 1: ORGANIZATION AND BASIS OF FINANCIAL STATEMENTS

1.1. General information

These interim condensed financial statements had been prepared in accordance with the prescriptions of IAS 34.

1.2. Accounting

The Bank maintains its accounting records and prepares its statutory accounts in accordance with the commercial, banking and fiscal regulations prevailing in Hungary.

OTP Mortgage Bank's functional currency is the Hungarian Forint ("HUF").

The Bank followed the same accounting policies and methods of computation in the interim financial statements as compared with the most recent annual financial statements.

NOTE 2: SIGNIFICANT EVENTS DURING THE SIX MONTH PERIOD ENDED 30 JUNE 2024

Pursuant to Government Decree No. 130/2024 (issued on 20 June) the Government extended the interest rate cap scheme until December 31, 2024 under unchanged conditions.

NOTE 3: SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

There was no significant post balance sheet event.
