### 1. What is this product?

English law governed notes

Term **Objectives** (Terms that appear in **bold** in this section are described

Type

below.)

The product has a fixed term and will be due on 18 October 2028, subject to an early redemption. The product is designed to provide a return in the form of a cash payment on termination of the product. The timing and amount of this payment will depend on the performance of the **underlying**. The payment at maturity will not exceed EUR 1,352.00. If, at maturity, the **final reference level** of the **underlying** has fallen below 65.00% of the **initial reference level**, the product may return less than the unit reference amount or even the minimum payment amount of EUR 300.00. Early termination following an autocall: The product will terminate prior to the maturity date if, on any autocall observation date, the in more detail

reference level is at or above the autocall barrier level. On any such early termination, you will on the immediately following autocall payment date receive a cash payment equal to the applicable autocall payment. The relevant dates and autocall payments are in the table(s) shown in the table(s) below.

Autocall observation dates	Autocall payment dates	Autocall payments
13 October 2025	20 October 2025	EUR 1,088.00
12 October 2026	19 October 2026	EUR 1,176.00
11 October 2027	18 October 2027	EUR 1,264.00

Termination on the maturity date: If the product has not terminated early, on the maturity date you will receive:

1 if the final reference level is at or above the initial reference level, a cash payment equal to EUR 1,352.00;

- 2. if the final reference level is at or above 65.00% of the initial reference level and below the initial reference level, a cash payment equal to EUR 1,000.00; or
- 3 if the final reference level is below 65.00% of the initial reference level, a cash payment directly linked to the performance of the underlying. The cash payment will equal (i) the unit reference amount multiplied by (ii) (A) the final reference level divided by (B) the initial reference level. However, if this cash payment is less than EUR 300.00, you will receive EUR 300.00 (the minimum payment).

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

Intended retail The product is intended to be offered to retail investors who fulfil all of the criteria below:

- 1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
- 2. they seek income and/or capital growth, expect the movement in the underlying to perform in a way that generates a positive return. They have a medium investment horizon and understand that the product may terminate early;
- they are only able to bear a partial loss of their initial investment, consistent with the redemption profile of the product at maturity (market risk);
- 4. they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product irrespective of the redemption profile of the product (credit risk);
- 5. they are willing to accept a level of risk of 5 out of 7 to achieve potential returns, which reflects a medium-high risk (as shown in the summary risk indicator below which takes into account both market risk and credit risk).

#### 2. What are the risks and what could I get in return?

investor

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the past performance of the **underlying** over a period of up to 5 years. In the case of an early redemption, it has been assumed that no reinvestment has occurred. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

# 3. What happens if the issuer or the guarantor is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not covered by any deposit protection scheme.

## 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different investment periods. The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

• EUR 10,000 is invested

• a performance of the product that is consistent with each holding period shown.

	Exit costs	1.00% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If an early redemption occurs or if you hold the product until maturity, no exit costs will be incurred.	EUR 100	

# 5. How long should I hold it and can I take money out early?

#### Recommended holding period: 4 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 18 October 2028 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product off-exchange, where an offer for such product exists. In such circumstances, the price quoted will take into account any costs incurred by the issuer and/or the manufacturer associated with the early unwinding of the product. In addition, the person who sold you the product may charge you brokerage fees when you sell the product (see section "4. What are the costs?"). By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

### 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person. Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: SFI Sales Business Management, Citigroup Centre, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: EMEA.Markets.Complaints@citi.com or at the following website: http://www.citigroup.com/.
